10. ORDERS – INSTRUCTIONS AND BASIS OF DEALING

Reception and Execution of Transactions

The Company may, in certain circumstances, accept instructions, by telephone via the Company's Brokerage Department, provided that the Company is satisfied, at its full discretion, of the client's identity by asking relevant details such as passport and/or ID number and/or verification code(s) and the Company is also satisfied with the clarity of the instructions given. In case of an order received by the Company by any means other than through the trading platform, the order will be transmitted by the Company to the trading platform and processed as if it was received through the trading platform. It is understood that an order will not be affected until it is actually considered as received by the Company. It is noted that in this Agreement, instructions and orders have the same meaning.

In the event that the Company wishes to confirm in any manner any instructions and/or orders and/or communications sent through the telephone, it reserves the right to do so. The client accepts that there is a risk of misinterpretation or mistakes in the instructions or orders sent through the telephone, regardless of what caused them, including, among others, technical failures and/or human intervention.

Once the client's instructions or orders are received by the Company, they cannot be revoked, except with the Company's written consent which may be given at the Company's sole and absolute discretion. The Company reserves the right not to accept client's orders, at its absolute discretion, and in such a case the Company shall not be obliged to give a reason and/or justification, but it shall promptly notify the client of its decision.

The transaction (opening or closing a position) is executed at the "BID" / "ASK" prices offered to the Client. The Client chooses the position he wishes to take and makes a request to receive a transaction confirmation by the Company. The transaction is executed at the prices the client can see on the screen. Due to the high volatility of the markets during the confirmation process the price may change, and the Company has the right to offer the client a new price. In the event that the Company offers the client a new price, the client can either accept the new price and execute the transaction or refuse the new price and cancel the execution of the transaction.

The Company uses its reasonable endeavours to execute any order promptly, but in accepting the client's order(s) the Company does not represent or warrant that it will be possible to execute such order(s) or that execution will be possible according to the client's instructions. In case the Company encounters any material difficulty in carrying out an order on client's behalf, for example in case the market is closed and/or due to illiquidity in financial instruments and other market conditions, the Company shall promptly notify the client.

The Company can change the list of financial assets and leverage that are available for the Client to open Forex and/or CFD trades. For example, if one of the Financial Assets has high chances to drop

down and the Company is aware of this fact, then the Company is entitled to withdraw the financial asset from its trading platform or decrease the leverage set for the financial asset.

The client agrees that the transactions entered in Financial Instruments with the Company are not executed on a Trading Venue (Regulated Market, Multilateral Trading Facility and/or Organized Trading Facility), rather they are executed by the Liquidity Provider, through its trading platform, which is NOT a Trading Venue, and as such may expose the client to greater risks than those of a Trading Venue (OTC traded transactions). Therefore, the Liquidity Provider may not execute an order for reason(s) including a technical error of the trading platform or may slightly change the opening (closing) price of an order.

Important: The client understands and accepts that in case there is a specific instruction from a client to place an order, the Company shall execute the order according to the given instruction, hence the Company's Order Execution Policy may not be followed. In this respect, it is emphasized that the specific instructions given by a client may prevent the Company from taking the measures/steps that it has designed and implemented by means of its Order Execution Policy in order to ensure the best possible result for its clients, for the execution of those orders in respect of the elements covered by those instructions.

The following orders are available to be placed by the client through the trading platform:

- Any of the joint account holders may give us an effective and final discharge in respect of any of their obligations under this agreement; and

LEVERAGE

Leverage is a tool that enables traders to 'borrow' capital in order to have a greater exposure to a particular market thus, enabling the trader to make a small deposit of his own funds when opening a new order.

All clients are automatically defaulted to a leverage of ratio permitted by ESMA for example, default leverage of 1:30 during the account opening is available for retail clients trading CFDs on FX major currency pairs. This procedure means that for €1,000 deposit ("margin") when opening a position on major currency pair, the trader will have a € 30,000 in buying power. For more information on the leverage for Retail and Professional clients please refer to our website.

Although, leverage provides the opportunity for larger gains, it can also lead to bigger losses.

A varied of leverage amounts such as 1:500, 1:400, 1:200 and 1:100 are available for professional traders only on selected products. Retail clients are subject to lower leverage based on ESMA's Decision 2018/796 dated 22 May 2018.
